

Common Europe Executive Day

Monday 1 November 2021

Bella Sky Conference & Event, Copenhagen, Denmark

Agenda below

Dear Executives,

We are very excited to invite you to the second edition of the Executive Day, a day for charting IT strategy. Please see below why your business cannot afford to miss it.

What is it all about

The IBM i Executive Day is a unique European event especially for decision-makers in whose companies the IBM i platform has played a major role for many years and has contributed to the company's success over decades. It's a one-day strategy event geared towards executives and their interests. Group discussion will surround solutions around modernization, attracting young talents, transformation, and other topics. These discussions among peers and then with IBM Executives will take participants, and their departments, to the next level of IT and business synergy.

Why you cannot miss to be there

The impending generation change in the IBM i teams, the pressure from the business due to the requirements of digitization and the often poorly documented core applications create enormous pressure to act, especially in this environment. The IBM i Executive Day offers networking at the highest level with experts from the market and like-minded entrepreneurs. Here you will find answers to your urgent questions and expand your personal network.

What are our objectives?

- ✓ How you and your company benefit from the IBM i platform and avoid bad investments,
- ✓ How IBM i strategy about cloud, integration and sustainability will accelerate your success,
- ✓ Guaranteed success in attracting new employees to IBM i Teams
- ✓ Strategies and methods for modernizing and opening up legacy applications.

Practical considerations

Seating is limited to 20 and restricted to customers only. This event is independent from the rest of the Congress and is held in another area of the venue. It also includes a networking group dinner at the conclusion. Registration options include Executive Day only or a combined registration for Executive Day and the remaining Congress.

Best regards
Executive Day Committee

Lars F Peterson, IBM Denmark
Simon Porstendorfer, IBM Germany
Henry Karlsen, Dely Norway
Shrirang "Ranga" Deshpande, Common Europe
